## 2. Project Evaluation and Outcome:

<p>How do you describe the difference Welfare Nepal made to the education of the children?</p>	<p>MANK Transit Home was running with very difficult situation because there wasn't any financial support from others. But, when MANK connected with Welfare Nepal, WN supported some fund to run Transit Home. There were no fund even to buy their copies, school dresses &amp; other educational materials. WN fund were used to cater those needs for the children which made easy access to needed materials to continue their study. All the children got promoted to upper grade, no failure in class. They improved their study after getting educational support &amp; regular guidance.</p> <p>Since MANK is transit home, all children cannot be kept for longer durations. Given the situation, MANK always looks for permanent place for better opportunities to children. Hence in the due course, 5 children - (4 girls) are transferred to CWIN Nepal's Bal Helpline</p> <ul style="list-style-type: none"> <li>- Two children (1 boy &amp; 1 girl) relocated on 23<sup>rd</sup> March, 2017,</li> <li>- Three children (3 girls) relocated on 3<sup>rd</sup> April, 2017.</li> </ul> <p>And, 1 boy (Rabi Nepali) was reintegrated with their family on 4<sup>th</sup> April 2017. They are continuing studying at school in that organization.</p> <p>Support fund received from WN has been helpful in continuing study of remaining 3 children here in MANK.</p>
<p>How do you describe the difference Welfare Nepal made to the health of the children?</p>	<p>MANK with support from WN, helped to clear out the pending bills in the stores. Children are able to get 3 meals a day, cooked in the MANK kitchen. The foods are hygienic &amp; healthy because it is homemade foods. So far children haven't face dangerous diseases, only occasional headache, fever, diarrhoea that is been cured in MANK itself.</p>

## Project Report

How do you think Welfare Nepal can help you next?

These are the things where Welfare Nepal can help to MANK:

- Those children who are re-integrated with family members, they really need livelihood support to sustain their life with their parents & to minimize child protection's issues. So that, it is necessary to provide livelihood & other need based support for most vulnerable children.
- To continue support in children re-integration & rehabilitation.
- To establish permanent childcare centre for vulnerable children.
- To implement new project on child protection sector.
